

Fred Summers, WW 2
Updated Bio
December 16, 2009

I have been with North Carolina Rural Water Association for six years. During that time I have enjoyed working with member systems on many diverse projects, including N.P.D.E.S. Permit renewals, Smoke Testing Collection Systems, Sewer Video and F.O.G.'s education both residential and commercial. Additional duties include conducting Continuing Education Classes with my friend Dwight Lancaster. I believe that I learn more at training days than the students.

I enjoy the Training days because it is a great opportunity to meet and greet members. I take great pleasure in making coffee (80 cups last class!) and giving away door prizes.

In the Wastewater field I am certified as a Grade IV Biological Operator and Land Applicator. In Water I am a C Well Operator and I am certified in distribution. I graduated from East Carolina University in 1975. I retired from Public Service/ Local Government in April of 2009 after 27+ years of employment.
