

# **Brian Grogan**

## **Source Water Protection Specialist**

Brian Grogan joined NCRWA in November of 2009 as a Source Water Protection Specialist.

Brian has a background in a variety of environmental related disciplines, including, water quality, waste management, and sediment control. He began his career in the private sector as an Operations Technician where he received his B Surface and Grade II wastewater certifications. During his time as an Erosion Control inspector in Guilford and Chatham Counties, Brian received certification as a Professional in Erosion and Sediment Control (CPESC). He has also worked as an Environmental Program Specialist with Guilford County where he dealt with a variety of issues including solid waste management.

Brian recently received his Masters of Science in Plant, Soil and Environmental Science from N.C. A & T State University. He is also a graduate of N.C. State University with a degree in Fish and Wildlife Science.

Brian is an avid outdoorsman and serves on the Rockingham County Hunting Advisory Board. He also volunteers as a Cub Scout Den Leader in his hometown of Reidsville.
