

Ronald S. “Ronnie” West
Backflow & Cross Connection Training Specialist

Ronald West began his employment with the NCRWA on Monday, June 1, 2009. Prior to employment with the NCRWA, Ronald worked as the Backflow & Cross Connection Training/Consultant for Infotec, LLC. Ronald was employed with Infotec from July 2003 to May 2009. Prior to employment with Infotec, Ronald was employed with the Public Works Commission of the City of Fayetteville, NC for thirty-six years. He was responsible for administering the PWC Cross Connection Control Program. He developed and instructed the PWC Backflow Prevention Assembly Tester Certification Program.

Ronald is a member of the National American Backflow Prevention Association and the Carolinas Chapter ABPA. Ronald served as Region 3 Director and on the National Board of Directors of ABPA for four years. In 1992 Ronald help organized the North Carolina Chapter ABPA and then expanded to include South Carolina in 1995 changing the name to the Carolinas Chapter. He is a past President and current Treasurer of the Carolinas Chapter ABPA.

Ronald currently serves on the NC AWWA/WEA Board of Education and Examiners. Duties include developing/reviewing/revising the State of North Carolina cross connection control exam bank for state certification exams. He has also served on the NC AWWA/WEA Collection and Distribution School Committee, and NC AWWA/WEA Cross Connection Control Backflow Prevention Committee.

Ronald served on the National Working Committee of ASSE, to develop the ASSA 1060 Standard for Above Ground Enclosures for Backflow Prevention Assemblies.

Ronald received certification in Backflow Prevention Assembly Testing and Cross Connection Control from the North Carolina Section of AWWA in 1988. In 2001 received ORC certification in Backflow Prevention Cross Connection Control. Ronald has received the following certifications with the University of Florida TREEO Center: Backflow Prevention Assembly Tester 1988, Backflow Prevention Assembly Instructor 1989, Survey and Inspection 1990, Backflow Prevention Assembly Repair and Maintenance 1996, Cross Connection Control Ordinance and Organization 1998, Cross Connection Control Program Manager 1998.
